DOCUMENT VERSION CONTROL RECORD

Version Number	Effective Date of Release	Summary of Included Changes	Author
1.0	05 May 2026	First version (issued for the earlier course title, Build a Conversational AI Agent with Google Gemini)	Tertiary Infotech Academy
2.0	7 November 2026	Rebuilt for AI Agents with Gemini Spark (TGS-2026064173) and courseware v3.0: Gemini Spark lessons and Google Workspace labs replace the earlier content. Lesson plan timed to the Course Proposal. Rebuilt to the WSQ house standard (cover page, version control record, page-numbered table of contents, footer). Assessment questions, answers and the rubric now sit only in the Assessment Plan.	Tertiary Infotech Academy
3.0	7 November 2026	Aligned to courseware v25: free-trial and setup slides added to the opening block, prompt pattern and lab troubleshooting added to Topic 1. Slide ranges updated. Timings, labs and assessment unchanged.	Tertiary Infotech Academy

1. Course Overview

Course Title	AI Agents with Gemini Spark
TGS Ref No	TGS-2026064173
Skills Framework	Skills Framework for Tourism
TSC Title	Media Platforms Management
TSC Code	TOU-PRE-4003-1.1-1
TSC Category	Business Development, Sales and Marketing
TSC Description	Drive organisational policies and procedures for media use as well as develop and implement media plans in business while evaluating their effectiveness
TSC Proficiency Level	4
Course Duration	1 day · 8 hours (classroom 4 hrs, hands-on 2.7 hrs, assessment 1.3 hrs)
Daily Timing	9:30 am – 6:30 pm (1-hour lunch not counted; tea breaks within training time). Two-evening runs: 6:00 pm – 10:00 pm on both evenings.
Mode of Delivery	Classroom, instructor-led and hands-on: learners run Gemini Spark on Google Workspace in a browser across fifteen labs in one Northstar Studio story
Class Size / Ratio	Maximum 10 learners per trainer (approved ratio 1:10)
Assessment	Practical Performance (PP) — 60 min, individual, summative, open book Oral Questioning (OQ) — 20 min, individual, summative, open book

1.1 TSC Knowledge and Abilities

Code	Statement	Assessed by
K1	Media platform management strategies	OQ
K2	Components of media engagement plans	OQ
K3	Trends in media usage	OQ
K4	Media usage trends	OQ
K5	Methods to integrate various media platforms	OQ
K6	Key performance indicators to evaluate media platform effectiveness	OQ
A1	Determine media platforms for communications	PP
A2	Develop and facilitate the contents and integration of media platforms	PP
A3	Develop the media plan frameworks by defining the activities, timelines, targets and responsibilities	PP
A4	Manage and address escalated complaints, conflicts and crisis situations arising from media users	PP

1.2 Abbreviations

Abbreviation	Meaning
LG / FG / AP / LP	Learner Guide / Facilitator Guide / Assessment Plan / Lesson Plan
TSC / K / A	Technical Skills and Competency / Knowledge statement / Ability statement
LU / ELO	Learning Unit / Enabling Learning Outcome
PP / OQ	Practical Performance / Oral Questioning
C / NYC	Competent / Not Yet Competent
Task (in Gemini)	Google's current label for Gemini Spark, below the Gemini text box
TRAQOM	Training Quality and Outcome Measurement survey (SSG)

2. Learning Units, Learning Outcomes and K&A Mapping

The Learning Units (LUs), Learning Outcomes (LOs) and Knowledge & Abilities (K&A) below are as approved in the Course Proposal; the topic lists reflect the current courseware. Section 2.1 shows where each LU is delivered in the current deck and activities.

Learning Unit	Topics (K&A)	Learning Outcome and K&A Statements
LU1: AI Agent Strategy and Gemini Spark Fundamentals	Topic 1: AI Agent Strategy and Gemini Spark Fundamentals (A1, K1) • Brief history of AI; agentic AI vs AI agents; how an agent works • Use cases and the Big Five always-on agents • Gemini Spark: tasks, schedules, skills and the five access gates • Choosing platforms; delegating up the risk ladder; approvals and browsers	ELO1: Determine AI chatbot strategy (delivered as AI-agent strategy with Gemini Spark) K1: Media platform management strategies A1: Determine media platforms for communications
LU2: Building Agent Skills, Tasks and Tool Integrations	Topic 2: Building Agent Skills, Tasks and Tool Integrations (A2, K4, K5) • Creating and calling skills • One approved content inventory across channels • What Spark can do in Gmail, Calendar, Docs, Sheets, Slides, Drive, Keep and Tasks • Google Sites: Spark writes, the learner builds and publishes • Media usage trends	ELO2: Develop AI chatbot content and Integrate to media platforms (delivered as skills and content with Gemini Spark) K4: Media usage trends K5: Methods to integrate various media platforms A2: Develop and facilitate the contents and integration of media platforms
LU3: Agent Workflow Implementation, Scheduling and Governance	Topic 3: Agent Workflow Implementation, Scheduling and Governance (A3, K3, K6) • Time-based schedules, Gmail monitors and topic monitors • The close-the-lid test • Implementation plans: activities, timelines, targets, owners • No-overlap rules, approval gates and rollback • Trends in media usage and the KPIs they drive	ELO3: Develop AI chatbot implementation plan (delivered as a Gemini Spark implementation plan) K3: Trends in media usage K6: Key performance indicators to evaluate media platform effectiveness A3: Develop the media plan frameworks by defining the activities, timelines, targets and responsibilities
LU4: Agent Monitoring, Performance Evaluation and Optimisation	Topic 4: Agent Monitoring, Performance Evaluation and Optimisation (A4, K2) • Monitoring and a four-part scorecard • Prompt injection and the seven containment moves • Escalated complaints and media engagement plans • Optimising one change at a time	ELO4: Evaluate AI chatbot performance (delivered as Gemini Spark workflow evaluation) K2: Components of media engagement plans A4: Manage and address escalated complaints, conflicts and crisis situations arising from media users

2.1 Delivery Map — Learning Units to the Current Courseware

Learning Unit	Delivered in (current deck / activities)	K&A
LU1: AI Agent Strategy and Gemini Spark Fundamentals	Topic 1 (slides 21–64); Labs 1–3: Gmail brief, Calendar clash guard and the Docs agent task contract (slides 65–71).	K1, A1
LU2: Building Agent Skills, Tasks and Tool Integrations	Topic 2 (slides 72–83); Labs 4–7: a skill, then the launch kit in Sheets, Slides, Docs and Sites (slides 84–91).	K4, K5, A2

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Learning Unit	Delivered in (current deck / activities)	K&A
LU3: Agent Workflow Implementation, Scheduling and Governance	Topic 3 (slides 92–102); Labs 8–11: close-the-lid test, weekly posts, Gmail monitor and implementation plan (slides 103–110).	K3, K6, A3
LU4: Agent Monitoring, Performance Evaluation and Optimisation	Topic 4 (slides 111–120); Labs 12–14: containment, complaint and control fix, scorecard (slides 121–127).	K2, A4

3. Facilitator Preparation

3.1 Resources Required

- Trainer slide deck (PPT) and learner slides (PDF), Learner Guide, Lesson Plan and the labs/ folder: download from the LMS at https://lms-tms.tertiaryinfotech.com/
- labs/prompts.html: copy-ready prompts for every lab step
- Each learner: a personal Google Account on Google AI Pro or Ultra, age 18+, with Keep Activity and Personal Intelligence on
- Learner laptops with Chrome; projector or TV; reliable Wi-Fi
- TRAQOM digital attendance QR codes (AM, PM and Assessment); PP and OQ papers

3.2 Before the Class

- Download the current deck, Learner Guide and labs/ from the LMS; confirm the slide ranges against this guide.
- Dry-run the labs on a Pro or Ultra account before each new run: Google changes menus and labels without notice.
- Email learners before class about the account requirement. Plan pairs for anyone without access: work and school accounts are not supported.
- Prepare the TRAQOM QR codes for AM, PM and Assessment attendance.
- Pre-load the PP and OQ papers on the LMS; keep the Assessment Plan with the assessor only.

3.3 Facilitator Roles and Responsibilities

- Deliver every topic and activity in the sequence of the Lesson Plan, using the slide ranges shown.
- Take the mandatory AM, PM and Assessment digital attendance (TRAQOM QR) at the points shown in the lesson plan.
- Check understanding through questioning; coach each learner during the hands-on activities.
- Conduct the Briefing for Assessment, then administer the assessment exactly as specified in the Assessment Plan.
- Record outcomes in the Assessment Summary Record, give feedback, and upload the assessment evidence to the LMS.
- Remind learners to complete the TRAQOM survey and course feedback before they leave.

4. Instructional Methods

Instructional Method	How it is used in this course	Trainer : Learner
Lecture	Concept segments for each topic: the AI landscape, Spark fundamentals, skills, schedules and evaluation.	1:10
Didactic Questioning	Pre-planned questions after each segment to check learners can explain why each control is needed.	1:10
Demonstration	The trainer runs each Spark task live, reading the plan and work panel aloud, before learners attempt it.	1:10
Hands-On Practical	Fourteen short Google Workspace labs for Northstar Studio, plus one after class: Gmail and Calendar, the Sheets, Slides, Docs and Sites launch kit, schedules and monitors, then containment and a scorecard.	1:10

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

5. Lesson Plan and Facilitator Instructions

This lesson plan mirrors Lesson Plan v25 and is timed to the approved Course Proposal: classroom 240 min (including admin and tea breaks), hands-on 160 min, assessment 80 min. The proposal gives LU1 no hands-on time; Labs 1–3 run because PP Task 1 draws on them, and the course totals still match. Slide numbers refer to deck v3.0.

One day: from the AI landscape to an always-on Gemini Spark workflow

Time	Duration	Topic / Activity and Instructions for Facilitator	Instructional Method	Resources
9:30–9:50	20 min	Welcome, introductions, learning outcomes, ground rules, LMS download, assessment briefing and digital attendance (AM).	Lecture	Slides 1–20, QR
9:50–10:50	60 min	Topic 1 Part A (LU1 · K1, A1): history of AI, agentic AI vs AI agents, the agentic loop, five collaboration scenarios, five use cases, the Big Five and one briefing per agent.	Lecture, Didactic Questioning	Slides 21–44
10:50–11:00	10 min	Tea break	—	—
11:00–11:40	40 min	Topic 1 Part B (LU1): Gemini Spark fundamentals: tasks, schedules, skills, the five gates, platforms, the risk ladder, approvals and browsers. Facilitator: demonstrate one read-only task live.	Lecture, Demonstration	Slides 45–64
11:40–12:20	40 min	Labs 1–3: Gmail first brief, Calendar clash guard, Docs agent task contract (PP Task 1 evidence). Facilitator: check every learner denies a send and that the inbox is unchanged.	Hands-On Practical	Slides 65–71, labs 1–3
12:20–13:20	60 min	Lunch break	—	—
13:20–13:50	30 min	Topic 2 (LU2 · K4, K5, A2): skills, one approved inventory, what Spark can do in each Workspace app, and why Sites stays with the learner.	Lecture, Demonstration	Slides 72–83
13:50–14:50	60 min	Labs 4–7: northstar-writer skill, Sheets dashboard, Slides deck, Docs copy and Google Site (PP Task 2 evidence). Facilitator: insist on the row count of 23.	Hands-On Practical	Slides 84–91, labs 4–7
14:50–15:20	30 min	Topic 3 (LU3 · K3, K6, A3): triggers, build order, implementation plan, governance, no-overlap rule and rollback. Set the close-the-lid test at the end.	Lecture, Didactic Questioning	Slides 92–102
15:20–15:30	10 min	Tea break, laptops closed.	—	—
15:30–16:00	30 min	Labs 8–11: close-the-lid result, weekly posts, Gmail monitor, implementation plan (PP Task 3 evidence). Facilitator: collect the close-the-lid results; pause all schedules at the end.	Hands-On Practical	Slides 103–110, labs 8–11
16:00–16:20	20 min	Topic 4 (LU4 · K2, A4): scorecard, prompt injection, containment, complaints and engagement plans.	Lecture, Demonstration	Slides 111–120
16:20–16:50	30 min	Labs 12–14: containment checklist, complaint and control fix, scorecard (PP Task 4 evidence).	Hands-On Practical	Slides 121–127, labs 12–14
16:50–17:10	20 min	Course summary, final assessment briefing, TRAQOM survey and Assessment digital attendance.	Lecture	Slides 128–135, QR
17:10–18:10	60 min	Practical Performance (PP): 4 tasks, one screenshot each, open book (see the Assessment Plan).	Assessment	PP paper
18:10–18:30	20 min	Oral Questioning (OQ): 4 questions, one to one, then sign-off and PM digital attendance (see the Assessment Plan).	Assessment	OQ paper, QR

Total: 8 hours (classroom 4 hrs + hands-on 2.7 hrs + assessment 1.3 hrs), 9:30 am – 6:30 pm, excluding the 1-hour lunch.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

5.1 Facilitation Notes

- Teach Gemini Spark in the browser only. The other four agents in Part A are for comparison. Do not teach VS Code, Git or coding tools.
- Spark results vary between runs and menus move. Teach learners to record what they actually saw.
- A denied action must stop dead. If anything is sent without confirmation, stop the lab and report it.
- The canary in Labs 12 and 13 is harmless. Learners must pause their schedules at the end of Lab 11, before running it.
- A minimum of 75% attendance is required for assessment and funding eligibility.

6. Assessment Overview

6.1 Structure and Duration of Training and Assessment

Component	Duration
Classroom training, including admin and tea breaks	4 hrs
Hands-on practical	2.7 hrs
Practical Performance (PP)	60 min
Oral Questioning (OQ)	20 min
Total course duration	8 hrs

6.2 Summary of Assessment Requirements

Learning Outcome	Assessment Method(s)
ELO1: Determine AI chatbot strategy (delivered as AI-agent strategy with Gemini Spark)	PP, OQ
ELO2: Develop AI chatbot content and Integrate to media platforms (delivered as skills and content with Gemini Spark)	PP, OQ
ELO3: Develop AI chatbot implementation plan (delivered as a Gemini Spark implementation plan)	PP, OQ
ELO4: Evaluate AI chatbot performance (delivered as Gemini Spark workflow evaluation)	PP, OQ

6.3 Assessment Methods, Duration and Ratio

Method	K&A covered	Questions / Tasks	Duration	Assessor : Candidate
Practical Performance (PP) Individual, summative, open book	A1, A2, A3, A4	Task 1 — A1 Task 2 — A2 Task 3 — A3 Task 4 — A4	60 min	1:10
Oral Questioning (OQ) Individual, summative, open book	K1, K2, K3, K4, K5, K6	Q1 — K1 Q2 — K4, K5 Q3 — K3, K6 Q4 — K2	20 min	1:1

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

6.4 Conducting the Assessment

1. Deliver the Briefing for Assessment: purpose, methods, duration, open-book rules, the C/NYC grading and the appeal process.
2. Take the Assessment digital attendance and verify each candidate's identity (name and last 3 digits + alphabet of NRIC/FIN).
3. Issue the question papers (Assessment Plan Annexes) only at the start of each assessment; keep the suggested answers and rubric with the assessor.
4. Invigilate; candidates work individually. Answer clarification questions about the task, never about the answer.
5. Mark each response against the rubric (Assessment Plan Annex E); use oral clarification (1:1, up to 5 minutes) only to close a minor gap.
6. Record C/NYC per LO in the Assessment Summary Record, give feedback, obtain both signatures, and upload the scripts and records to the LMS.
7. A candidate assessed NYC is offered re-assessment in line with the Assessment Plan; explain the appeal procedure if the candidate disagrees.

7. Reference Documents

Document	Purpose
Trainer Slides (PPT) / Learner Slides (PDF) v25	Teaching material for every session
Lesson Plan (LP) v25	Session timing and slide ranges
Learner Guide (LG) v25	Learner reference notes and lab instructions
Assessment Plan (AP)	Assessment methods, conditions, records and appeal
PP v3.0 and OQ v2.0 papers and answer keys	Assessment instruments, reproduced in the Assessment Plan annexes
labs/ folder (labs 1–15) and labs/prompts.html	Instructions PDFs, mock data and copy-ready prompts
Course Proposal (CP) CA-WSQ-2020-004959	Approved TSC, K&A, ELOs, durations and ratios
