LESSON PLAN

For

AI Agents with Gemini Spark

TGS Ref No: TGS-2026064173

Conducted by
Tertiary Infotech Academy Pte Ltd
UEN: 201200696W

Version 3.0

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

DOCUMENT VERSION CONTROL RECORD

Version Number	Effective Date of Release	Summary of Included Changes	Author
1.0	23 August 2026	Initial release.	Dr. Alfred Ang
2.0	6 November 2026	Rebuilt around Gemini Spark as the always-on agent; coding tools removed. Prepared locally, not published.	Dr. Alfred Ang
3.0	7 November 2026	Aligned to deck v3.0 and the fifteen Google Workspace labs. Re-timed to the Course Proposal: classroom 240 min, hands-on 160 min, assessment 80 min. Two-evening split and slide references updated.	Dr. Alfred Ang

Course Information

Course title	AI Agents with Gemini Spark
Course code	TGS-2026064173
Training provider	Tertiary Infotech Academy Pte Ltd (UEN 201200696W)
Duration	8 hours, including assessment
Delivery	Instructor-led concepts, demonstrations, guided labs and evidence review
Assessment	Practical Performance 60 minutes + Oral Questioning 20 minutes
Trainer	Dr. Alfred Ang

Learning Outcomes

- LO1: Determine an AI-agent strategy by deciding which work to hand to Gemini Spark, through which platforms, with which permissions and approval points.
- LO2: Develop agent skills, tasks and content, and integrate them across Gmail, Docs, Sheets, Slides, Sites and Drive.
- LO3: Develop an implementation plan for always-on Gemini Spark workflows, covering schedules, monitors, responsibilities, timelines, targets and rollback.
- LO4: Evaluate agent performance using task outcomes, error rates and review effort, contain incidents, and optimise the workflow.

Daily Schedule

Time	Duration	Topic / Activity	Method	Slides
9:30-9:50	20 min	Welcome, digital attendance, course orientation and assessment briefing	Briefing / facilitation	1-18
9:50-10:50	60 min	**Topic 1 (Part A) - History of AI, agentic AI vs AI agents, use cases and the Big Five always-on agents**	Concepts / demonstration	19-42
10:50-11:00	10 min	Tea break	Break	—
11:00-11:40	40 min	**Topic 1 (Part B) - Gemini Spark fundamentals: tasks, schedules, skills, platforms and approvals**	Concepts / demonstration	43-60
11:40-12:20	40 min	Labs 1-3 - Gmail, Calendar and Docs: first brief, clash guard and agent task contract	Guided practical	61-67
12:20-13:20	60 min	Lunch break	Lunch	—
13:20-13:50	30 min	**Topic 2 - Building Agent Skills, Tasks and Tool Integrations**	Concepts / demonstration	68-79
13:50-14:50	60 min	Labs 4-7 - Skills, Sheets, Slides, Docs and Sites: the launch kit	Guided practical	80-87
14:50-15:20	30 min	**Topic 3 - Agent Workflow Implementation, Scheduling and Governance**	Concepts / demonstration	88-98
15:20-15:30	10 min	Tea break, laptops closed for the close-the-lid test	Break	—
15:30-16:00	30 min	Labs 8-11 - Schedules, monitors and the implementation plan	Guided practical	99-106
16:00-16:20	20 min	**Topic 4 - Agent Monitoring, Performance Evaluation and Optimisation**	Concepts / demonstration	107-116
16:20-16:50	30 min	Labs 12-14 - Containment, complaint and scorecard	Guided practical	117-123
16:50-17:10	20 min	Course summary, final assessment briefing, TRAQOM and assessment digital attendance	Briefing / facilitation	124-131
17:10-18:10	60 min	**Practical Performance (PP)**	Summative assessment	—
18:10-18:30	20 min	**Oral Questioning (OQ) and sign-off**	Summative assessment	—

Classroom (including admin and tea breaks): 240 minutes · Hands-on: 160 minutes · Assessment: 80 minutes · Lunch: 60 minutes. Matches the approved Course Proposal.

Two-Evening Runs

Thursday and Friday evening classes (6:00pm-10:00pm on the course page) cover the same 480 minutes. Learners set the close-the-lid test at the end of Topic 3 on Evening 2, close their laptops for the break, and read the result in Lab 8.

Session	Time	Activity
Evening 1	18:00-18:20	Welcome, attendance, orientation and assessment briefing
Evening 1	18:20-19:20	Topic 1 (Part A)
Evening 1	19:20-19:30	Break
Evening 1	19:30-20:10	Topic 1 (Part B)
Evening 1	20:10-20:50	Labs 1-3
Evening 1	20:50-21:20	Topic 2
Evening 1	21:20-22:00	Labs 4-6
Evening 2	18:00-18:20	Lab 7
Evening 2	18:20-18:50	Topic 3, then set the close-the-lid test
Evening 2	18:50-19:00	Break, laptops closed
Evening 2	19:00-19:30	Labs 8-11
Evening 2	19:30-19:50	Topic 4
Evening 2	19:50-20:20	Labs 12-14
Evening 2	20:20-20:40	Course summary, final assessment briefing, TRAQOM and attendance
Evening 2	20:40-21:40	Practical Performance (PP)
Evening 2	21:40-22:00	Oral Questioning (OQ) and sign-off

Keep It on Spark

Trainer note: This course teaches Gemini Spark in the browser. Do not teach VS Code, Git, Claude Code, Codex or any coding tool. The Part A landscape names other agents for comparison only: spend the day on Spark. Learners build the website in Google Sites, with no code. Assessment notes for trainers are in the Facilitator Guide.

Topic-by-Topic Facilitation

Close-the-lid test: At the end of Topic 3, have learners run Lab 8 Step 1, then close their laptops for the tea break. They read the result when Labs 8-11 start.

Topic 01 - AI Agent Strategy and Gemini Spark Fundamentals · Slides 19-60

Outcome and criteria: LO1 · K1, A1

Facilitation focus: Hand Spark the reading first. Hand it the sending only after it has earned your trust.

- Delegate by risk: Reading and summarising come first; sending, changing and buying always stop for you.
- Choose the platforms: Match each audience and action to a channel, then connect only the apps that job needs.
- Write the task: State the goal, the scope, the output and what Spark must ask before doing.
- Stay in the loop: Read the plan, watch the steps, stop, steer, deny or take over.

Lab 1 - Gmail: Hand Spark Your Inbox, Then Tell It No · 15 min

Google apps: Gmail, Drive

Deliverables: A task thread showing the plan and the brief; One denied send; One Gmail draft, unsent

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Acceptance: Your inbox is unchanged, the denied send stopped dead, and one unsent draft holds no price.

Lab 2 - Calendar: Catch the Double-Booking Before You Say Yes · 10 min

Google apps: Calendar

Deliverables: A brief naming the clash; Three open slots for the Bukit Bakes call

Acceptance: Spark named the Tuesday clash, and no event changed without your confirmation.

Lab 3 - Docs: Write the Contract Your Agent Works Under · 15 min

Google apps: Docs, Drive

Deliverables: Northstar-Agent-Task-Contract in Google Docs: two platforms, permission matrix, approval map, stop rules

Acceptance: Two platforms are justified, and every send, publish or pay row sits with the human owner.

Assessment link: PP Task 1: ONE screenshot of your completed agent task contract showing the two platforms and the permission matrix.

Topic 02 - Building Agent Skills, Tasks and Tool Integrations · Slides 68-79

Outcome and criteria: LO2 · K4, K5, A2

Facilitation focus: Write the instructions once. Every reply, row and report after that comes out your way.

- Skills: Reusable instructions and context, created with Gemini, from a template, by hand or by uploading SKILL.md.
- Description first: Spark uses the name and description to decide when a skill applies, so write them precisely.
- Tool integration: One task can read Gmail, fill a Sheet, write a Doc and export a PDF to one Drive folder.
- Consistent content: Approved facts live in one inventory, and every channel draws from it.

Lab 4 - Skills: Teach Spark to Write Like Northstar · 10 min

Google apps: Gmail

Deliverables: northstar-writer skill on your Skills page; One test reply in Gmail Drafts

Acceptance: The skill writes in your voice, refuses a price, and saves a draft without sending.

Lab 5 - Sheets: Turn a Messy Export into a Dashboard · 15 min

Google apps: Sheets, Drive

Deliverables: Northstar-Launch-Dashboard in Sheets: 23 leads, formulas and a chart

Acceptance: 23 leads, live formulas in Summary, and a chart on Trend.

Lab 6 - Slides: Build the Client Deck from Your Sheet · 15 min

Google apps: Slides, Sheets

Deliverables: Northstar-Capability-Deck in Slides: 6 slides with the Sheets chart

Acceptance: Six slides, the logo, the Sheets chart on slide 5, and no price or results promise.

Lab 7 - Sites: Spark Writes the Website, You Build and Publish It · 20 min

Google apps: Docs, Sites, Slides, Sheets

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Deliverables: Northstar-Site-Copy in Docs, with a claim-to-source table; Your Northstar website in Google Sites, checked at phone width

Acceptance: Every claim traces to the inventory, the review without permission is left out, and the site works at phone width.

Assessment link: PP Task 2: ONE screenshot of your finished website in the browser with the Chrome device toolbar set to a mobile viewport.

Topic 03 - Agent Workflow Implementation, Scheduling and Governance · Slides 88-98

Outcome and criteria: LO3 · K3, K6, A3

Facilitation focus: A schedule multiplies whatever you built, good or bad. Prove it by hand before you automate it.

- Three triggers: Time-based schedules, Gmail monitors and topic monitors.
- Build and test: Create in a task thread or on the Scheduled page, then click Run now.
- Implementation plan: Activities, timelines, targets, owners and the evidence for each.
- Rollback: Pause it, undo through Gemini's confirmation link, and restore from version history.

Lab 8 - Schedules: Close the Lid and See What Always-On Means · 8 min

Google apps: Docs, Gmail, Calendar, Drive

Deliverables: Your close-the-lid result, written down; A daily morning brief schedule

Acceptance: You have a timestamp, or a documented no-show, and a schedule that sends nothing.

Lab 9 - Skills + Schedules: Weekly Posts with a No-Overlap Rule · 8 min

Google apps: Docs, Drive

Deliverables: northstar-content skill; A Monday schedule; A completed schedule specification

Acceptance: The second Run now stopped at your rule and created no second copy.

Lab 10 - Monitors: One Email Updates Your Sheet and Your Drafts · 7 min

Google apps: Gmail, Sheets

Deliverables: A Gmail monitor; A new row in Leads; One unsent reply draft

Acceptance: The monitor logged the test enquiry and the reply is still unsent.

Lab 11 - Sheets: Plan the Rollout, Own the Gate and the Rollback · 7 min

Google apps: Sheets

Deliverables: Northstar-Implementation-Plan in Sheets: 5+ activities, timelines, targets, owners, approval gate, rollback

Acceptance: Five or more activities, a named approval gate, a rollback owner, and all schedules paused.

Assessment link: PP Task 3: ONE screenshot of your completed implementation plan showing 5+ activities with timelines, targets, responsible parties, the approval gate and the rollback route.

Topic 04 - Agent Monitoring, Performance Evaluation and Optimisation · Slides 107-116

Outcome and criteria: LO4 · K2, A4

Facilitation focus: An agent earns its place when the saved time beats the review time, and it stops safely when it should.

- Monitor: Work panel steps, Files panel, task status and the Scheduled page.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

- Measure: Quality, safety, efficiency and business outcome, each with an evidence source.
- Contain: Stop, pause, preserve, restore, tell the owner, then fix the control.
- Optimise: Change one instruction, re-run, compare, and widen the agent's duties slowly.

Lab 12 - Containment: Catch the Hidden Instruction in a Supplier's Doc · 15 min

Google apps: Drive, Docs

Deliverables: Northstar-Containment-Checklist in Google Docs

Acceptance: You wrote down whether Spark obeyed or ignored the canary, and your checklist matches what you actually did.

Assessment link: PP Task 4: ONE screenshot of your completed containment checklist showing the containment actions, approval route, restoration method and the check that the workflow is safe to resume.

Lab 13 - Complaint: Hold the Reply, Fix One Control, Run the Same Test · 8 min

Google apps: Gmail, Docs

Deliverables: One unsent complaint reply in Gmail Drafts; One new rule in your skill; A second announcement draft to compare; A media engagement plan

Acceptance: The reply is still unsent, and you can show the announcement before and after your fix.

Lab 14 - Scorecard: Do the Maths on Whether Spark Earns Its Keep · 7 min

Google apps: Sheets

Deliverables: Northstar-Scorecard in Sheets with four KPIs and net minutes saved

Acceptance: Four KPIs each have an evidence source, and the net-minutes figure is a live formula.

Lab 15 - After Class: Task, Then Skill, Then Schedule on Your Expense Log · 20 min (after class)

Google apps: Gmail, Sheets

Deliverables: Northstar-Expenses in Sheets; An expense skill; A Sunday schedule

Acceptance: The three test receipts total S$168.40, and the schedule adds rows without duplicating them.

Resources Required

- Trainer slide deck and projector
- Learner Guide, fifteen lab folders and labs/prompts.html
- A laptop with a modern browser for every learner (Lab 3 closes the lid)
- A personal Google Account with Google AI Pro or Ultra, Keep Activity and Personal Intelligence on (confirm before class)
- A paired-learner plan for anyone without access on the day
- LMS access for materials, attendance and assessment

Assessment

- Practical Performance (PP) - 4 tasks covering A1-A4, one screenshot per task - 60 minutes - open book.
- Oral Questioning (OQ) - 4 questions covering K1-K6 - 20 minutes - open book.
- All criteria must be demonstrated as competent. Candidate papers are submitted on the LMS; answer keys remain trainer-only.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

- Final briefing begins at 16:50; PP runs 17:10-18:10; OQ and sign-off run 18:10-18:30.
