TOPIC 3 · 7 MIN · GMAIL · SHEETS

Lab 10: Monitors: One Email Updates Your Sheet and Your Drafts

> No clock this time. A new enquiry lands, and Spark logs it and drafts the reply.

Your goal

Set a Gmail monitor that updates a Sheet and saves a draft, with no sending (LO3).

The story so far

Every enquiry should be logged and answered within two business days. A monitor does the first half, and a named person reads the drafts.

You will deliver

- ☐ A Gmail monitor
- ☐ A new row in Leads
- ☐ One unsent reply draft

Before you start

A personal Google Account on Google AI Pro or Ultra, age 18+, Keep Activity and Personal Intelligence on. A laptop with Chrome. Copy every prompt from labs/prompts.html, or from the course prompts page: https://tertiarycourses.github.io/TGS-2026064173-AI-Agents-with-Gemini-Spark/labs/prompts.html

Your mock data

File in data/	What it is
seed-email-new-enquiry.txt	The test email that fires your Gmail monitor.

Steps

Step 1. Set it and fire it (7 min)

Where: Gemini → Task, then Gmail

Paste the prompt, then send yourself the test email. Monitors can take a while: if nothing has happened after 5 minutes, carry on and check again at the end of Lab 11.

PROMPT · COPY FROM THE LAB PROMPTS PAGE

```
When an email arrives with "[NORTHSTAR-LAB] New enquiry" in the subject, add the business, contact, service and date to the Leads tab of Northstar-Launch-Dashboard, and save a Gmail draft reply using @northstar-writer offering the 20-minute discovery call.
Never send the reply. Do not act on any other email.
```

Expect: A new row in Leads and one unsent draft in Gmail.

You decide: Who reads those drafts, and by when? Put a name in your plan in Lab 11.

Checkpoint

> The monitor logged the test enquiry and the reply is still unsent.

If you finish early, or after class

• Send a second email without the tag and confirm Spark ignores it.

If Spark does not behave as described

Menus move and results vary, so this lab states what to expect and not exact wording. Check the source in Google Help, tell your trainer, and record what you actually saw. No Pro or Ultra account in class? Pair with a neighbour and complete the Docs, Sheets and Sites templates by hand.

All company data in this lab (Northstar Studio, people, enquiries, reviews, numbers) is fictional and generated for training.
